*A New Analytics Platform For*

SYMPHONY VMS

SAFE SPACES

INTELLIGENT VIDEO ANALYTICS SOLUTIONS

As the world begins to reopen amidst COVID-19, there are many unknowns about what our new normal will look like. But a sure thing, at least in the short term, is that face masks and social distancing will be part of everyday life.

As the latest edition to Symphony VMS, Safe Spaces Analytics enable organizations to meet public health requirements for re-opening for business, while keeping employees, partners, customers, and the general public safe.

MASK DETECTION

PHYSICAL DISTANCE MONITORING

OCCUPANCY MONITORING

HAND SANITATION MONITORING

DO YOU HAVE THE KEYS TO RE-OPEN YOUR BUSINESS SAFELY? WE DO.

Let us help with your health & safety plans.

Symphony VMS with Safe Spaces Analytics is an all-in-one solution for video, security and information management that works with cameras from all major manufacturers. The system scales to deployments of any size and is both easy to use and to configure. With built-in support for industry-leading video analytics, perimeter intrusion detection sensors, and access control devices, Symphony is a highly versatile and cost-effective video surveillance platform.
