2017 Recommended Specifications
# for PC's Running SafeDispatch

Application Server PC

In order to effectively install and ideally run the SafeDispatch Application components including the Database, Application Server, Gateway and Admin Module within the application, a specific PC must be dedicated to the application alone. The _Application Server PC_ would also be the PC that will have your control station MOTOTRBO® radios connected as well.

Requirement	Description
Operating System (s)	Windows 10 Professional 64-bit, English or Windows Server 2016
Processors	Intel® Core i7-7820HK or Intel® Core i9 7900x processor
Memory	32GB Quad Channel DDR4 at 2666MHz
Boot Hard Drives	1TB m.2 PCIe SSD
Optical Drive	8x DVD+/-RW 9.5mm Optical Disk Drive
Graphics Cards	NVIDIA® GeForce® GTX 1080 OC with 8GB GDDR5
System Recovery	Recovery Media for Windows 10 64bit or Windows Server 2016
Ports	1 free USB, RJ 45 (Gigabit Ethernet)

These specifications can be found at online. SafeMobile **DOES NOT** provide PC's to Dealers. Should you choose another PC manufacturer, please be sure the specifications are adequate and comparable to those noted above.
