   Live access to the real-time information
   you need to make essential decisions
- STREAMLINED COMMUNICATIONS
   Simultaneous communication with
   multiple radio platforms from one source
- CONVERGENCE OF INFORMATION
   One centralized hub for all of your voice, messaging, work orders and data
- REMOTE ACCESS
   Access your dispatch solution using the SafeDispatch Mobile app from any Android mobile device (sold separately)
- CUSTOMIZED SOLUTIONS
   A modular build allows you to choose only
  the features you need for your business.

## PROFESSIONAL CLIENT-SERVER INTEGRATED DISPATCH SOLUTION

The redesigned SafeDispatch is both a versatile and user-friendly voice console and sophisticated resource management tools in one solution. The modular desktop application suites have been enhanced to add unique value to your two-way radio system by increasing your efficiency, optimizing your productivity and further improving your field safety.

SafeDispatch solutions cover the spectrum of critical communication and professional needs with solutions for network and device management, data assurance and analysis, advanced voice, as well as messaging applications, so you have the tools you need to deliver the non-stop service your network demands.

Whether you need GPS tracking, integrated voice dispatch or work order tickets, SafeDispatch can help support your business.
